

Additional Questions

If the proposed project is funded at a level lower than requested, at what amount of funding can the sponsoring agency still deliver meaningful service?

Due to the limited availability of resources it is often necessary to fund proposed projects at levels below the levels requested. Please describe a reduced level of funding at which effective service can be delivered and what reductions in your budget can be made.

What experience do you have in serving the target population and in providing the type of service in the proposed project?

This may include past experience related to the proposed project or a similar project or other experience that indicates the skills, knowledge and ability to perform successfully.

Do other projects or services currently exist in Lewis County that are similar to the proposed project?

If yes, briefly describe the other projects or services and indicate how this project will not exceed or overfill the existing gap/need in the community.

How will you monitor progress towards achieving project goals and compile the necessary program statistics for quarterly and annual reporting?

Describe the data collection tools that will be used. Indicate who will be responsible for monitoring progress and tracking/compiling information required for reporting.

What methods will the proposed project use to ensure input by participants concerning the services provided?

What are the specific outcome goals for the proposed project?

What outreach methods do you use and/or do you plan on using to make the proposed project services known and available to eligible county residents, including persons residing in rural and isolated areas?
